No. D/1954 of 1922.

OFFICE OF THE SURGEON-GENERAL
WITH THE GOVERNMENT OF BOMBAY:
POONA, 28th July 1922.

From

Colonel V. B. BENNETT, M.B., F.R.C.S., I.M.S.,
Surgeon-General with the Government of Bombay;

To

THE SECRETARY TO GOVERNMENT,
General Department, Bombay.

Subject:—*Annual Report on Civil Hospitals and Dispensaries for the year 1921.*

Sir,

I have the honour to submit, for the information of Government the following report on the Civil Hospitals and Dispensaries of the Bombay Presidency for the year 1921.

2. The Hospitals have generally been kept in good repair. The few additions and alterations made during the year were:—

(*a*) At the Bai Motlibai Hospitals a portion of the top back verandah was fitted with expended metal and a collapsible iron door was fixed at the head of the special staircase leading to the Medical Officer's office.

(*b*) At the Cama Hospital the additional wing to the Nurse's quarters was ready for occupation. The additional accommodation will relieve congestion and add to the comfort of the Nursing Staff.

(*c*) At the Dharwar Civil Hospital the work of removing the wind mill that was adjusted to the hospital well was completed during the year.

(*d*) At the Bijapur Civil Hospital, the new maternity ward was completed.

(*e*) At the Civil Hospital, Sadra, a new male ward has been added to the Hospital.

3. The several statements attached are summarized below:—

Statement A.

4. The total number of institutions open on 31st December 1921 was 778 as compared with 740 in the previous year. The number of Government aided institutions rose from 317 to 327. As a result of the scheme for providing new dispensaries, 7 dispensaries, *viz.*, those at Dhadgaon in West Khandesh, Hukeri in Belgaum, Tankaria in Broach, Thasra and Virsad in Kaira, Samaro in Larkhana and Johanpur in Upper Sind Frontier, were opened during the year.

Statement B.

5. The total number of patients treated during the year was 25,09,996 as compared with 24,52,051 in 1920, an increase of 57,945 or 2·4 per cent. Of the total treated 77,893 were in-patients and 24,32,103 were out-patients. as compared with 74,947 in-patients and 23,77,104 out-patients treated in 1920, the former showing an increase over the previous year of 2,946 or 3·9 per cent. and the latter 54,999 or 2·3 per cent.

6. Of the in-door patients treated 52,321 were cured, 8,995 were relieved, 6,247 were discharged otherwise and 7,201 died. The ratio of deaths per cent. to the total treated was 9·2 as compared with 9·1 in 1920.

7. The number of beds available was 6,902 against 6,892 and the daily average number of patients occupying them was 3,738·5 as compared with 3,646·0 in the previous year. The average daily attendance of out-patients was 25,047·0 against 23,387·0 in 1920.

Statement C I.

8. The following comparative table shows the principal diseases among the in door patients treated during the years 1920 and 1921 and mortality due to them:—

Diseases.	1921.		1920.	
	Total treated.	Deaths.	Total treated.	Deaths.
Cholera	105	51	189	95
Dysentery	1,720	273	1,666	263
Leprosy	2,461	70	1,724	233
Malaria	9,768	196	8,529	158
Plague	424	302	181	103
Small-pox	636	153	686	131
Tubercle of the lung	1,589	584	1,297	457
Other tubercular diseases	1,044	146	1,302	251
Diarrhœa	1,362	388	1,468	443
Injuries (general and local)	11,438	809	10,660	721
Labour cases, normal and abnormal	8,291	74	7,857	61

9. *Cholera.*—The disease prevailed in some villages of Ratnagiri District, in mild form in Ahmednagar and Jalgaon, in an epidemic form in Karachi and a few sporadic cases occurred in Surat.

10. *Dysentery and Diarrhœa.*—The admissions for these complaints which are mainly due to contaminated water supply remain practically the same. The incidence of mortality due to these complaints was, however less, being 21·4 against 22·5 in the previous year.

11. *Malaria.*—The figures for malaria show some increase in the number of admissions during 1921. To counteract this disease quinine 'treatments' were put up for sale to the public as usual in malarious districts at cheap rates. In addition quinine treatments worth Rs. 50,000 were distributed free of charge to the general public and school children in Sind and Kanara, where malaria is more prevalent than elsewhere in the Presidency. Twenty-two Sub-Assistant Surgeons were deputed for anti-malarial duty in the most malarious places in the Presidency including Sind.

12. *Small-pox.*—The disease was prevalent in 42 villages of Ratnagiri District with 340 cases and 55 deaths; in Ratnagiri town there were 121 cases and 22 deaths.

13. The number of in-door and out-door cases of small-pox treated during the year 1921 was 1,009. Of these 502 were unvaccinated, 471 vaccinated in infancy, 5 vaccinated after infection and 31 re-vaccinated.

14. *Tuberculosis.*—The admissions and deaths for tuberculosis show a slight increase over the previous year. The number of cases during the year was 2,633 with 730 deaths against 2,599 with 708 deaths in 1920.

15. *Labour cases.*—The admissions for labour cases continue to increase. The number rose from 7,857 in 1920 to 8,291 in 1921, an increase of 5·5 per cent. The figure shows the growing popularity of maternity wards attached to hospitals and dispensaries and the need for increasing their numbers.

Statement C II.

16. Amongst out-door patients the largest number of admissions were for malaria 4,51,240 followed by diseases of the digestive system 2,65,461, diseases of the eye 2,31,263, diseases of the skin 1,68,453, respiratory diseases 1,46,715, and diseases of the ear 1,28,057.

Statements D I and D II.

17. The attendance at Police, Canals, Forests and other State special institutions was 59,651, as compared with 64,178 in 1920. At the Railway Hospitals the attendance rose from 2,42,839 in 1920 to 2,65,920 in 1921—an increase of 23,081.

Statement E.

18. The total number of in-door and out-door patients treated at the private non-aided institutions was 14,45,915 as compared with 15,04,811 treated in 1920.

Statement F.

19. Of the total patients treated during the year 19,505 were Europeans and Eurasians, 15,75,802 were Hindus, 7,82,877 were Musalmans and 1,31,812 belonged to other classes. The total number of patients treated at female hospitals and dispensaries was 87,594 as compared with 90,661 in the previous year. Although the figures show a slight decrease of 3,067 in the total treated, the attendance of women at general hospitals and dispensaries increased from 5,39,217 in 1920 to 5,41,117 in 1921. The rise at the latter class of hospitals is indicative of the readiness of female patients to avoid themselves of the facilities which they afford and confirms the need for provision of women doctors in general hospitals, the treatment of women by women doctors being one of the very desirable facilities to be aimed at.

Statement G.

20. During the year 99,150 surgical operations were performed against 1,01,739 in the previous year. They were performed on 98,377 persons with a mortality of 0·44 per cent. as compared with 1,01,126 persons and a mortality of 0·40 per cent. in 1920.

21. The removal of tumours and cysts gave 1,572 operations with 12 deaths in 1921, against 1,514 with 7 deaths in 1920. Operations on bones 1,993 with 30 deaths against 2,107 with 14 deaths the previous year; amputations numbered 711 with 28 deaths against 738 with 44 deaths in 1920; cataract extractions 2,223 against 2,139; vesical calculi were removed by litholapaxy and lithotrity in 751 cases with 16 deaths against 1,005 with 15 deaths. Lithotomy was resorted to in 224 cases with 11 deaths against 188 with 20 deaths in 1920.

22. Abdominal operations other than those for diseases peculiar to women numbered 1,634 with 107 deaths against 1,801 with 124 deaths, while those for diseases peculiar to women numbered 195 with 3 deaths, as compared with 139 with 3 deaths in 1920. The total number of abdominal operations was 1,829 with 110 deaths against 1,940 with 127 deaths in 1920. The number included 237 operations for the radical cure of hernia and 138 for abscess of liver.

23. Obstetric operations numbered 938 with 31 deaths against 1,044 with 38 deaths in 1920 and operations for conditions peculiar to women other than obstetrics and abdominal numbered 665 with 5 deaths against 773 with 12 deaths in 1920.

Statement H.

24. The total income exclusive of the cash balance amounted to Rs. 45,12,373 as compared with Rs. 40,79,765 in 1920. Local funds contributed Rs. 5,25,679 and municipal funds Rs. 7,70,609. The interest on invested capital yielded Rs. 59,601. Subscriptions from Europeans and Indians amounted to Rs. 1,40,391. Miscellaneous receipts amounted to Rs. 5,52,763 of which Rs. 2,15,055 were realised on account of Hospital fees and Rs. 1,62,108 contributed by the several nursing associations.

25. The total expenditure amounted to Rs. 44,82,019 as compared with Rs. 40,08,377 in the previous year. Deducting from this Rs. 1,88,998 remitted into the treasury on account of the hospital fees, sale proceeds of unserviceable articles, etc., and Rs. 64,300 invested during the year, the net cost for the year was Rs. 42,28,721. The average cost of each diet was Re. 0-6-0 or almost the same as in the previous year.

Statement J.

26. On the 1st January 1921 the invested capital stood at Rs 11,28,474. During the year Rs. 64,300 were invested and securities worth Rs. 33,000 were sold or withdrawn leaving a balance of Rs. 11,59,774 at the end of the year.

Honorary Staff.

27. The practice of employing private medical practitioners on the teaching staffs of the Poona and the Ahmedabad Medical Schools continues to work well.

I have the honour to be,
Sir,
Your most obedient servant,

V. B. BENNETT,
M.B., F.R.C.S., Colonel, I.M.S.,
Officiating Surgeon-General with the Government of Bombay.

APPENDEX I.

CIVIL HOSPITAL AND DISPENSARY STATISTICS.

STATEMENT A.

Showing the number of Civil Hospitals and Dispensaries in the Bombay Presidency during the year 1921.

[Total Population of the Province—26,757,648.]

Class of Civil Hospital and Dispensary.	Number open on 31st December 1920.	Number opened during the year 1921.	Number closed during the year 1921.	Number open on the last day of the year 1921.	Remarks.
1	2	3	4	5	6
I.—State-Public ...	53	.....	.....	53	
II.—State—Special :—					
(i) Police ...	5	.....	.....	5	
(ii) Forests and Surveys ...	1	.....	.....	1	
(iii) Canals ...	5	.....	.....	5	
(iv) Others ...	16	(*a*) 1	(*b*) 1	16	(*a*) Criminal Tribes Settlement Dispensary, Hubli. (*b*) Telegraph Dispensary, Fao.
III.—Local and Municipal Funds ...	317	(*c*) 10	.....	327	(*c*) Dhadgaon in West Khandesh, Vambori in Ahmednagar, Hukeri in Belgaum, Tankaria in Broach, Thasra and Virsad in Kaira, Gariabad and Old Sukkur Dispensary in Sukkur, Samaro in Larkhana, Johanpur in Jacobabad, (U.S.F.) Districts.
IV.—Private—Aided ...	17	.....	.....	17	(*d*) 1 each in Thana and Aden, 6 in Ratnagiri, 5 in Poona, 2 in Ahmednagar Districts, and 2 in Kolaba, 1 each in Satara, Kaira and Rewakantha, 6 in Southern Mahratta Country and 21 in Kathiawar States.
V.—Private—Non-aided ...	271	(*d*) 47	(*e*) 19	299	(*e*) 1 in Broach and 5 in Surat Districts and 1 each in Dharwar, Ahmedabad, Mahikantha and Cutch, 2 in Surat, 3 in Bijapur and 4 in Palanpur Agencies.
VI.—Railways ...	55	.....	.....	55	
Total ..	740	58	20	778	

CLASSES I AND II.—These include all institutions maintained by provincial funds and under Government management. The fact that an institution possesses endowments or receives contributions from local funds or private subscriptions has not been regarded as a reason for not classing it as 'State' when provincial and imperial funds are practically responsible for all the charges connected with it. Class I—'Public' are State Dispensaries which are open to the poorer classes of the public. Class II are State Dispensaries which serve only a special section of the public as indicated in the sub-classification attached.

CLASS III.—Local fund dispensaries include all institutions which are vested in local boards or municipalities or guaranteed or maintained by local or municipal funds. The fact that such an institution is aided by private subscriptions or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, has not been regarded as a reason for not classing it as a local fund dispensary, when its existence is practically dependent upon local funds.

CLASS IV.—Comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government for local funds.

CLASS V.—Comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers has not been regarded as a reason for not treating it as a private non-aided dispensary.

CLASS VI.—Comprises all railway dispensaries whether maintained by State railways or others.
